

Coronavirus COVID-19 – Statement update

As a long established and responsible business that is committed to both its staff and customers, we are closely monitoring the current situation.

As a Company our priority is to ensure everyone's safety by taking all necessary precautions to minimise the risk.

As a Company , we are following the guidelines and practices issued by Public Health England, details of which can be found at www.gov.uk.

We have contacted all our operatives to ensure that they are practicing good basic personal hygiene ie washing hands regularly, using and disposing of tissues etc.

We have instructed our operatives on all customer sites to prioritise the cleaning of touch points ie. door handles, door push places, hand rails, telephones, light switches etc

We are providing our operatives with appropriate PPE and chemicals to fulfil their duties.

Update 31/03/20

Following the Governments announcement on the 20th of March that HMRC will re-imburse 80% of "furloughed" workers wages, Bowdraper Ltd will in the event that any client chooses to close its premises :-

1. Suspend the cleaning contract indefinitely.
2. Not issue any further Invoices.
3. Ensure our staff receive 80% of their base pay.

We believe the above stance fully demonstrates our commitment as a 43 year old family business to our long term relationship with both our clients and our staff.

Thank you for your continued support.

Andrew Parkin

Managing Director
